(Continued from Page 1) We cannot all be preachers, elders, singers; some must take a more humble part. Church members must learn to be generous with each other, as they would be in the home. The church should become acquainted with two bears-bear and forbear. We should all read again and again Paul's message to the Galateans-see chapter 6:2. The churches must learn to plan together, pray together, work together. In this way they will make Jesus Christ the most attractive person in all the world. The world will not test our loyalty to the family of God-the church-by our long prayers, be they ever so beautiful. They will judge us

by our every-day life. "It is my prayer that every member of this church and the others present from our sister churches may so live every day that they may honor the family of God, and by so doing may honor Him, Jesus Christ our Lord."

## Personnel of Giants and Athletics Changed Since 1911.

New York, Sept. 29 .- A week more of major league play, a week or ten days following to settle the world's championship and the baseball season of 1913 will have passed into history.

The last week saw the pennant contests in both National and American leagues settled beyond dispute and arrangements for the big series between the New York Nationals and Philadelphia Americans completed. The "crucial series" of the year will open at the Polo grounds, New York on Oct. 7, and be fought out there and at Shibe park, Philadelphia, until the vinning of four games gives either the Giants or the Athletics the right to inscribe the legend, "World's cham-

pions. 1913," on the club's banner. The personnel of the two teams is now greatly changed from that of two years ago, when the Athletics won the series. Experts generally figure a decrease in defensive strength by the Mackmen through the loss of Jack Coombs, and a corresponding gain by the Giants through the addition of Tesreau and Demaree to the box staff. while Mathewson and Marquard still emain to oppose Bender and Plank. This leaves out of the reckoning, however, the large group of Philadelphia colt pitchers. It is interesting to note, however, that while the Athletics have worked effectively out of their batting slump and now are belaboring the ball in old-time style, the Giants have not shown a corresponding return to the hitting form. Last week McGraw's men averaged only three and a half runs to the game, while the Mackmen were amassing an average of nearly

## BLC ODY COAT MAY TELL WHO MURDERED BOY

## Evidence Against Suspect Arrested at Philadelphia.

Philadelphia, Sept. 29.-A strong web of circumstantial evidence was weven around Joseph O'Brien, arrested as a suspect in the murder of seven year-old Israel Goldman, according to the police. The boy's nude body found on the links of the White Marsh Country club. In O'Brien's room, a few doors from the home of the murdered boy, detectives found a bloodstained knit jacket, with the inside pockets torn away. The knit pockets found near the body, according to the police, are of similar texture to this jacket.

Several boys living in the neighborhood told detectives of trips to parks and other places on which they had been taken by O'Brien. He seemed unusually fond of children, they said, and frequently purchased them ice cream soda and other delicacles.

#### INCOME TAX FOR 425.000

That Many Must Be Able to Account to Collector Next Year.

Washington, Sept. 29 .- According made by treasury experts, 425,000 American citizens must keep such accurate account of their incomes this year that they will be able to account to the income tax collector next year exactly how much they owe the government under the new income tax law.

Every single person (citizen or for-eign resident) whose income exceeds \$3,000, and every person with an income above \$14,000, is expected to re port his or her receipts in detail to the government agents March 1 of each year.

The estimate indicates that the income tax will produce \$82,298,000 from the 425,000 persons taxed.

#### THINGS ALL OUGHT TO KNOW

As Christian Bible Students-The Sat isfactory Proof of "Why God Permits

One of the questions which comes to nearly every thinking mind today is.
"Why does God permit evil?" As we look about us in the world we observe that it is filled with sorrow and trouble. sickness and pain and every trial we could enumerate, and we cannot help wondering WHY GOD ALLOWS IT We realize that He is almighty and that He could prevent it if He wished. We read in His Word that He is more willing to do for His children than are earthly parents for theirs, and we know how much that means; yet of tentimes it seems that those who try to do and live right have the most trouble. This question is made very clear in a book entitled, "The Divin-Plan of the Ages." Every statement is backed by Scripture, and shows that while God does not sanction evil HE HAS HAD A PURPOSE IN ALLOW-ING SIN AND DEATH TO REIGN THESE SIX THOUSAND YEARS. This and many other subjects of deep interest to all of God's people are discussed fully and in language easy of comprehension.

To the astonishment of the entire family, which consisted of the parents and two boys a few years older than their sister, the little girl threw her spoon on the floor, her little fists doubled up while her breath came quickly between tightened lips that had never before looked like anything but a rosebud, when she managed to say, "I'll jus' div her funder next time I see her for not 'vitin' me." The mother gasped faintly, the father reached around on the floor for the napkin he didn't drop and both boys ran to the kitchen with a fearful coughing spell. Weakly, both parents endeavored to quiet and sooth the baby who had in some unaccountable way discovered it was an awful thing not to be 'vited to a party given by somebody she knew. They told her it was the neighbors and every-day playhad been outrageously treated, and said repeatedly that she was going to allowed their sister hear them say. It was thought best to let the little girl it was a long time before she could ously treated.
